TRAINING / EXPERIENCE

Data Analyst Intern — Sortiq Solutions (Jul 2026 – Dec 2026)

- Performed data cleaning and preprocessing on raw datasets using Python (Pandas, NumPy) to improve data quality and consistency for downstream analysis.
- Wrote SQL queries involving filtering, aggregation, and joins to extract business-relevant insights from relational databases.
- Built reports and dashboards in Excel and Power BI to present key metrics and analysis findings to stakeholders.

PROJECTS

E-commerce Sales & Customer Analytics

- Cleaned and analyzed e-commerce transaction data using Python and SQL to uncover sales trends and customer behavior patterns.
- Performed RFM (Recency, Frequency, Monetary) analysis to segment customers into actionable groups.
- Designed an interactive Power BI dashboard to visualize segmentation results and sales KPIs for decision-making.

AI-Powered Data Cleaning Tool

- Built a Python tool (Pandas, NumPy) to detect missing values, duplicates and outliers in raw CSV/Excel data.
- Added an AI layer to suggest cleaning actions like imputation, data type fixes and value standardization.
- Generated cleaning summary reports and exported analysis-ready datasets, cutting manual preprocessing effort.
